## CONFERENCES ON COTTON QUESTION HELD

### Indebtedness of Nation Depends on Cotton Situation.

Washington, Oct. 19.—Sir George Paish, special adviser to the English chancellor of the exchequer; Basil B. Blackett, of the English treasury; Secretary McAdoo and the federal reserve board today began a series of conferences here which are expected to have an important effect on financial conditions in Great Britain and the United States. Restoration of normal conditions in foreign exchange dealings between the two countries is the object of the meetings and they probably will have a direct effect on the disposition of the South's cotton crop.

It became known tonight that officials of the American government feel keenly that cotton is the crux of a situation which has many ramifications and that on the success of plans to care for the surplus and on the willingness of manufacturers to buy cotton depends the value of Sir George's visit.

It is probable that before Sir George returns to England the question of a reopening of the London and New York cotton exchanges will be considered. It was predicted here tonight that the London Exchange would reopen shortly, with the British government urging that London brokers do not call loans immediately. If the London market is not greatly affected its resumption of business may be followed by the reopening of the New York exchange.

So much depends on the cotton problem that there probably will be no further conference until a committee of the board, which is handling the proposed \$150,000,000 cotton loan fund plan, has found a satisfactory solution. The committee, Secretary McAdoo, Paul M. Warburg and W. P. G. Harding, returned today from New York, where it had been at work since Saturday in an effort to convince New York bankers of the feasibility and soundness of plans for the fund.

The New York bankers promised to put up one third of the loan fund SEE COPY — CANT READ THIS! covered could not legally be met. The reserve board members proposed different conditions and as a further inducement offered to let the northern section of the United States put up three dollars to every one put up by Southern bankers with the understanding that the northern banks would have a prior lien for their money.

Under this tentative plan Southern banks would have actual management of the fund, the whole, however, to be under supervision of the reserve board. Other conditions as to interest rate and price of cotton were said to be left unchanged.

This counter-plan has not been passed upon finally but every opportunity will be taken to expedite its consideration so that the board may begin discussion of international problems with Sir George and Mr. Blackett.

The cotton crop is of first importance in these conferences because on it the United States has relied in past years to cancel the larger part of its foreign indebtedness.

Sir George is known to hold that English manufacturers do not wish to buy cotton now unless they are satisfied it has reached the bottom price. American manufacturers, according to information available at the treasury department, apparently feel the same way and little cotton is being sold. With the \$150,000,000 loan fund in operation it is argued that millions of bales will be taken out of this market and a direct and stimulating effect will be felt both here and in England. With cotton moving again across the Atlantic the indebtedness of the United States to England would be decreased rapidly and materially, and conditions here would improve in consequence.

Manager Cheatham has arranged for special feature pictures for every night this week. Tonight "The Pearl of the Punjab," a touching story of Gratitude and devotion in three parts, Thursday night, "The Million Dollar Mystery," Friday night "One of Our Girls," a picture everyone will like, and Saturday night, "European Armies in Action," in three parts. The price remains the same 5c and 10c.

Don't miss the great feature picture "The Pearl of the Punjab" in 3 parts at the Opera House tonight. This is a splendid picture and every one should see it. Prices the same, 5 and 10 cents.

One of the most beautiful weddings of the Autumn was that of Miss Mary Bradley and Rev. Henry E. Pressly, of Tampico, Mexico. The wedding took place at the home of Mr. and Mrs. Jas. F. The parlor where the bride and groom were married was decorated in white and green and was a scene of beauty and simplicity, but very beautiful. The marriage took place between two white pillars festooned in maiden hair ferns and holding jardinières filled with white snow begonias. In the background was handsome ferns banked on every side. The walls and windows were draped in Southern smilax and the mantle was banked with trailing lace ferns with numbers of gleaming candles shining through. The library where the presents were displayed was in gold and green, golden rod being used in profusion. The presents were beautiful and great in number. E. Pressly, and the bride on the arm of her father, J. F. Bradley. The bride wore a lovely dress of crepe meteor en train with exquisite lace tunic and long lace sleeves. A coronet of orange blossoms adorned her head from which the long bridal veil hung and flowed to the hem of the train. She carried a magnificent bouquet of brides roses and wore a diamond brooch, a gift of the groom.

## BANK OF CALHOUN FALLS CLOSES.

### Placed in Hands of Receiver Yesterday.

The Bank of Calhoun Falls, South Carolina, was placed in the hands of a receiver by Judge S. W. G. Shipp, presiding judge at Greenville, on yesterday, October 20th, 1914. The petition was filed by A. O. Grant, a stockholder and creditor of the bank, alleging that on account of the financial stringency the bank was unable to secure ready money with which to carry on its business and that it closed its doors and was unable to resume business. The complaint also alleged that the bank was in imminent danger of insolvency. The bank answered the petition denying its insolvency and alleging its ability to pay its debts, but admitted its inability to continue its banking business of the reasons alleged, and it therefore consented that a receiver be appointed to take charge of its affairs. Mr. S. J. Hester, of Calhoun Falls, South Carolina, was named as receiver. The petitioning creditor was represented by William P. Greene and the bank by D. H. Hill.

It is believed from information gathered that all creditors of the bank will be paid in full. Under the law of this State making stockholders liable to depositors to the extent of 100 per cent. on the capital stock in addition to the capital stock, all depositors will be paid in full. The depositors amount to about fourteen thousand dollars.

## "Bringing Up Father"

Gus Hill's production of George McManus' reigning cartoon series, "Bringing Up Father," has proven to be one of the most phenomenal successes of recent years. From the opening date, absolute capacity business has been a daily occurrence. At the Walnut Street Theatre, Philadelphia, thousands of people were actually turned away unable to secure admission. The same thing occurred at the Colonial Theatre, Baltimore, and the Liberty Theatre, Philadelphia. These facts were substantiated by Stair & Havlin, who book the houses named. The entire press of Philadelphia and Baltimore was unanimous in praise of the performance. The play is a veritable survival of the fittest. It is just what theatre-goers want, hence the unprecedented patronage.

This attraction will be seen at the Opera House next Wednesday, Oct. 21st.
